April Fool's Day started in the sixteenth century in Europe. Before that time, New Year's Day was celebrated on April 1st. Then people use a new calendar, the *Gregorian* calendar. January 1st became the first day of the year, but many people did not know about it. So some people continued to celebrate New Year's Day on April 1st. Other people laughed at them and called them fools.

Today we play jokes on people on April 1st. For example, someone might put salt in the sugar container, so another person could put it in their coffee. Or someone might change the time on another person's alarm clock, so that person might wake up early or late. Or a person might tell a lie to make someone else shocked.

After we play the trick, we say "April Fool." Then the poor person understands he was fooled. Do you have any great jokes to play on anyone? Try it out. Just don't forget to say "April Fool" when the other person begins to be angry.

Europe 歐洲 continue 繼續
the Gregorian calendar 格里曆;公曆
might 可能 container 容器 lie 謊言
shocked 震驚的 trick 惡作劇

3. When did April Fool's Day start?
